E-Prime testing with Net Station 5.2

PST has released E-Prime 2.0.10.353 and EENS 2.0.2.26, which is compatible with Windows 7. We are currently testing this release with Net Station 5.2 as part of our pre-release regression testing of this latest version of Net Station.

Please look out for our confirmation of performance before you move to E-Prime 2.0.10.353 and EENS 2.0.2.26.
